Tables {the cols and row spans}

Attributes

class: Specifies one or more class names for an element (used with CSS for styling).

id: Specifies a unique identifier for an HTML element.

style: Defines inline CSS styles for an element.

src: Specifies the source URL for external resources like images, scripts, etc.

alt: Provides alternative text for images (used when the image cannot be displayed).

href: Specifies the URL of a linked resource, usually used with <a> (anchor) elements for hyperlinks.

width: Defines the width of an element, often used with images and tables.

height: Defines the height of an element, often used with images and tables.

target: Specifies where to open linked resources (e.g., in a new window or tab).

placeholder: Provides a hint or example text for input fields.

disabled: Disables user interaction with the specified element (e.g., <input> or <button>).

readonly: Specifies that an input field should be read-only.

value: Defines the initial or default value for form elements like <input>.

checked: Used with checkboxes and radio buttons to indicate the default selected state.

maxlength: Specifies the maximum number of characters allowed in an input field.

required: Indicates that an input field must be filled out before submitting a form.

multiple: Allows users to select multiple options in a <select> dropdown.

rows: Defines the number of visible text lines in a <textarea>.

colspan: Specifies the number of columns a table cell should span.

rowspan: Specifies the number of rows a table cell should span.

colspan: Specifies the number of columns a table cell should span.

rowspan: Specifies the number of rows a table cell should span.

align: Aligns the content within an element (e.g., left, right, center).

colspan: Specifies the number of columns a table cell should span.

rowspan: Specifies the number of rows a table cell should span.

placeholder: Provides a hint or example text for input fields.

autocomplete: Specifies whether a form should have autocomplete enabled or disabled.
